

Reception Homework

What we find underground

Communication and Language

Discuss with family members and friends where you are from.

Can you find these on a map? Is it near or far away?

Understanding the World

Plant some daffodils and see how long it will take them to grow.

What do flowers need to grow? Where can you find daffodils growing?

Literacy

Find an outdoor area where you are able to see mini beasts that live underground and write a mini-beast checklist.

Have a go at labelling the parts of a plant.

Read 'Yucky Worms' and write about what happens in the story.

<https://www.youtube.com/watch?v=MV3A864z9W0>

Maths

Create a time-lapse of what happens during your day. You can use pictures and key vocab of first, next and finally.

Recap numbers 10-20.

Physical Development

Mini-beast activity challenge –

1. Wiggle like a worm.
2. Fly like a butterfly.

Expressive Art and Design (Design)

Create an ant colony using a range of different natural materials.

Junk modelling – recycle materials from home to make a model of your choice.

History and Geography - Understanding the World

Look at a world map and compare what you can find underground in different countries. Use pictures and videos to help your findings.

Technology

Use technology to take a picture of what you can find underground.

Trips

Explore local park and forests in your area and take pictures of what you can see.

If you can, use a magnifying glass to spot mini-beasts.
