

Careers at Hermitage Primary School

It's never too early to start thinking about what to do after school.....

We have partnered with [ExpertEd](#) to bring our children careers in the classroom. This brings speakers from the world of work LIVE into school, offering children the chance to hear from these experts into their own words and to question those who do these jobs day in, day out. Children could meet anyone from mechanics to engineers or stage actors to social media stars. Events take place in the early afternoon, twice per half-term and are pitched for children in Year 5 and 6.

Autumn 1 - [The British Army](#)
